## About

# SERAX

Serax is a Belgian design label, active for more than 30 years and still managed with a passionate family spirit. Today Serax works with passionate designers from all over the world. Ann Demeulemeester, Vincent Van Duysen, Paola Navone and Piet Boon are just a few names from the illustrious list. Serax tableware graces the tables of some of the best restaurants in the world. Whether you go for a bite to eat at Albert Adrià's Enigma

restaurant, at Jean George in New York City or at Nobu in Milan, Serax's carefully designed dinnerware and cutlery will give your culinary experience that little bit more. Over the years, Serax has grown into a versatile lifestyle brand. The products range from tableware and pottery to unique design furniture, lighting and accessories. In 2014 Serax received the Henry van de Velde Award, the most prestigious design prize in Belgium.

## About

# ANITA LE GRELLE

"I have five children. When my last child left home a few years ago to study in England, I suddenly had heaps of time, and for the first time I could focus entirely on my work." The energetic Anita Le Grelle spends up to twelve hours a day in her studio. There, she translates her immense creativity into, among other things, her Terres de rêves line for Serax. In natural shades that reference the earth, sky, and ocean, she continues to expand her dream world. Starting from something that she lacks, or as a creative protest against everyday objects that she simply does not find sufficiently attractive or useful, Anita Le Grelle brings ceramics to life. The refined

appearance and the different layers of glaze characterise the entire line. The energetic Anita Le Grelle spends up to twelve hours a day in her studio. Vincent Van Duysen

FOR

**SERAX**

## About

# VINCENT VAN DUYSEN

Vincent Van Duysen (1962) is one of Belgium's most acclaimed architects, interior designers, and product designers. After studying architecture at Sint-Lucas in Ghent, he gained a few years' experience with major players such as Aldo Civuc and Jean de Meulder. In 1990, he launched his own studio in Antwerp, where today, a team of more than 20 architects and designers helps to promote his vision. A vision that stems from an unbridled curiosity, focussing on the creation of an all-embracing atmosphere. Environment, architecture, interior, and design objects, everything is completely intertwined. His

style builds on purism and a sophisticated use of materials. Timeless designs, reduced to their very essence. Respecting tradition, he translates antique and vintage art and architecture into the design language we understand today. The emphasis is always on aesthetics, comfort and convenience. His designs steer clear of trends. They never clamour for attention, they simply stand out naturally for their simplicity and tranquillity. This is not only reflected in his designs for international companies such as B&B Italia, Poliform, Molteni&C, Paola Lenti, and Viccarbe, but also in his Passe-partout collection for Serax.
