ABOUT EKO

26 years of continued dedication to inspire excellence

Creativity and the spirit for innovation sparked the beginning of EKO. Founded in 1997, EKO is a vertically integrated housewares company with outstanding design, engineering, manufacturing and product development capabilities. Today, EKO products can be found in more than 100 countries and territories.

EKO brings innovative products designed with beauty and intelligence at their heart. We believe our tireless dedication to the quality of our products is at the core of our success, and we are always looking for inspiration in life to continuously innovate.

Combining great aesthetics, functionality, meticulous craftsmanship and the latest technology, our re-imagined products aim to inspire and create better living environments.

OUR PHILOSOPHY

BRAND SPIRIT

HARDWORKING

EKO believes our tireless work and dedication to our products is at the core of our success. We are always looking for inspiration in life and ways to continuously improve the quality of our products.

RESPONSIBLE

To build a brand is to build a promise. EKO's responsibility and promise to our customers is one of the most important aspects to the foundation of the brand. From product research and development, manufacturing, packaging, and after-sales service, EKO keeps its promise of high quality products and customer service.

CREATIVE

Creativity and innovation sparked the beginning of EKO. When others are bounded by the traditional image of the waste bin, EKO saw the potential of the product to be reinvented and reimagined. By creating a brand new perception of what a waste bin can be, EKO has become a leader in the industry. "A little better, much better." No change is too small for EKO. We believe a small change can make a big difference in the user's experience.

BRAND CORE VALUES

Environmental, Intelligent, User-Friendly

CRAFTSMANSHIP

EKO's approach to craftsmanship is incorporating innovation, beautiful style, with cutting-edge technology to better the user's experience. Our product development includes full market research, differentiated design, manufacturing prowess, quality assurance all with exceptional intrinsic value.

ATTENTION TO DETAIL

EKO strives to maintain the highest levels of service and positive end-user experience, EKO's continued quest for perfection results in paying meticulous attention to every detail from product innovation, selection of materials, testing, packaging, marketing & after sales support.
