More than ever, people expect products to be responsive, adaptive and effortless. It started with smartphones and computers. Now we leverage technologies to bring greater functionality to normal everyday products. We know we have succeeded when they fit seamlessly into modern life.

tools for efficient living

Day to day life has room for improvement. That's the basic thinking behind simplehuman. Many activities in our daily routine are so basic that we take them for granted. Washing our hands, cleaning up after a meal, prepping our appearance. Through innovation and new technologies, we find ways to streamline these simple tasks. We call our products tools for efficient living.

have a simple day!

founder, Frank Yang

**for truly clean hands,
clean your phone**

Your mobile phone is a breeding ground for germs, and you touch it hundreds of times a day. We developed the cleanstation to be quick enough to use while washing your hands for a truly effective cleaning routine.

cleanstation

	sku upc	case	dimensions (to nearest cm)
cleanstations			
10cm brushed high-grade stainless steel 	ST4000 838810024905	4	product: 11w x 19h x 5d packaging: 17w x 27h x 11d
10cm slate high-grade stainless steel 	ST4001 838810025056	4	product: 11w x 19h x 5d packaging: 17w x 27h x 11d
10cm white high-grade stainless steel 	ST4002 838810025063	4	product: 11w x 19h x 5d packaging: 17w x 27h x 11d
10cm matte silver high-grade stainless steel 	ST4003 838810025407	4	product: 11w x 19h x 5d packaging: 17w x 27h x 11d

The average person touches their phone 2,617 times per day, transferring germs to it with each touch. Our cleanstation uses our omni-lux™ chamber to sanitise the entire surface of your phone, killing 99.9% of germs in just 30 seconds – fast enough to use while washing your hands. As soon as you insert your phone, it automatically lowers into the omni-lux chamber where 30 high-intensity UV-C LED lights use highly reflective aluminium to ensure UV rays are hitting the entirety of your phone's surface. When sanitation is complete, the phone will automatically raise up. Keep your cleanstation by the sink so you can wash your hands with our touch-free sensor pump while sanitising your phone at the same time.

see yourself in the best light

Under the wrong lighting, makeup colours can fool you. With a colour rendering index (CRI) of 95, our tru-lux light system closely simulates natural sunlight's full colour spectrum to show every detail so you'll always know when your makeup is colour-correct and flawless.

sensor mirrors

sensor mirror trio & sensor mirror trio max

ultimate vanity centrepiece

Our sensor mirror trio is like having three mirrors in one. One side is 5x magnification so you can view your entire face in exceptional detail. And with a quick, easy flip to the other side, you get a 1x true view with a 10x window for detail work like applying eyeliner — all the magnifications you need for pro-quality makeup application.

3 views in one mirror

5x magnification on one side; flips to 1x and 10x magnification on the other.

tru-lux light system

At 800 lux and with a colour rendering index (CRI) of 95, the tru-lux light system is more than twice as bright and more closely simulates natural sunlight than the next best.

sensor on/off

Automatically lights up as your face approaches the mirror.

touch-control brightness

Fast, intuitive control over a continuous range of brightness from 100 lux to 800 lux.

rechargeable

One charge lasts up to 5 weeks (regular trios only, trio max is plug-in)

dual light settings

Check your look under full sunlight or true-to-life candlelight.

5 year warranty

three views in one mirror

sensor mirror **fold**

take the **best light** with you

Our sensor mirror fold lights up automatically as your face approaches. Its tru-lux light system simulates natural sunlight, allowing you to see full colour variation. The distortion-free mirror is 10x magnification — ideal for close-up work like tweezing or lipstick application. The mirror folds up and stores easily in the included padded travel case.

tru-lux light system

At 550 lux and with a colour rendering index (CRI) of 90, the tru-lux light system is more than twice as bright and more closely simulates natural sunlight than the next best.

10x magnification

Extremely close-up view for detail work like tweezing and applying eye makeup.

folds down flat

Easy to store and comes with convenient padded travel case.

Life is messy! That's why we develop sensor technologies that offer quicker, cleaner access to our bins. Whether you want to cut down on germs or footsteps, our goal is to remove friction and effort from the task.

open can

automatic, effortless, and hassle-free

Our rectangular sensor bin with voice control opens at the sound of your voice. Just say, “open can” and the lid opens automatically, so throwing rubbish away is quick, efficient and hassle-free. It also has a motion sensor that opens the bin with a wave of your hand and is smart enough to adapt to you and the surrounding environment — no false triggers, no unexpected lid closures.

just say “open can”

Three microphones triangulate sound for voice recognition accuracy, even in loud, busy environments.

motion sensor

Infrared fields sense the areas above and in front of the bin so it opens automatically with just the wave of your hand.

smooth, steady power

A planetary gear system transfers speed to torque for smooth, consistent lid operation.

whisper quiet

At 52 db, our bin is 50% quieter than the competition's.

neat and secure

Stainless steel liner rim flips up for a quick and easy liner change, then closes over the liner to hold it tightly in place and keep it hidden from sight.

small bin, big attitude

Our small bins are built with the same attention to detail as the larger models — with durable steel bodies, removable inner buckets, and strong steel pedals.

custom fit liners

choose a liner code

One size does not fit all! Our liners are designed to fit each of our bins perfectly so there is no messy bag overhang or bunching — and they never slip. Extra-thick plastic and double-seam construction prevent rips and tears. Strong drawstring handles make the liners easy to lift, tie, and carry.

Refill packs dispense liners one at a time — no perforations or unravelling — and are designed to fit perfectly inside bins with our built-in liner pocket system.

key features

- efficient drainage system channels water into the sink
- space efficient shape makes the most of limited countertop space
- drip tray protects countertop
- utensil and cup holders
- soft, coated steel wire protects dishes against chips and scratches
- durable, long-lasting materials won't rust or discolour
- wine glass holder (KT1181 & KT1190 only)
- anti-residue coating (steel frame dishracks only)
- fingerprint-proof finish resists smudges to keep stainless steel shiny (steel frame dishracks only)
- 5 year warranty

you wash, I'll dry

Our dishracks drain quickly and neatly — no puddles, water spots, or residue. We even have a swivel spout to drain water into the sink, no matter how you position the dishrack.

compost it!

Store compost scraps easily and efficiently with our odour-minimising stainless steel compost caddy. It attaches to a dock that hangs at the side of your rectangular or slim liner rim bin, or you can detach it for use on your kitchen counter.
